

Happy Birthday BABA!

Celebrating Baba's 114th irth Anniversary

Jai Gurudev!

My dear Guru brothers, sisters, and friends. This year we celebrate Baba Muktananda's 114th birth anniversary. On such an auspicious occasion I send blessings, with great respect and love. Yesterday was Baba's lunar birthday, the full moon of May., and today is his solar date.

It appears that a long time has passed since we sat at Baba's feet, listening to his wisdom and absorbing his divine shakti. Yet his presence is still clearly felt today. How fortunate we are that we had the opportunity to spend a few moments with such an ecstatic soul. Such beings take birth to awaken the sleeping power of mother Kundalini.

Many of you have enquired about my health. With Baba's and Bhagavan Nityananda's grace my health continues to improve. I thank you all for your prayers, good wishes, and kind words.

Sadgurunath Maharaj ki Jai!

With great respect and love,

Swami Prakashananda
